Treatment with Juvederm® Restylane® Belotero® Revanesse® or Radiesse® can smooth out folds and wrinkles, add volume to the lips, and contour facial features that have lost their fullness due to aging, sun exposure, illness, etc. Facial rejuvenation can be carried out with minimal complications. These dermal fillers are injected into the skin with a very fine needle. The products produce a natural volume under the wrinkle, which is lifted up and smoothed out. The results can often be seen immediately. Treating wrinkles with these dermal fillers is fast and safe and leaves no scars or other traces on the face.

RISKS AND COMPLICATIONS

It has been explained to me that there are certain inherent and potential risks and side effects in any invasive procedure and in this specific instance such risks include but are not limited to:

- 1) Post treatment discomfort, swelling, redness, and bruising, discoloration
- 2) Post treatment infection associated with any transcutaneous injection
- 3) Allergic reaction
- 4) Reactivation of Herpes (cold sores)
- 5) Lumpiness, visible yellow or white patches in approximately 20% of cases
- 6) Granuloma formation
- 7) Localized Necrosis and/or sloughing, with scab and/or without scab if blood vessel occlusion occurs.

*Minor bruising is a possibility and is not an emergency. If bruising occurs we can clear it up faster with an anti-bruising laser treatment. The cost for this is \$25 per zap. This can shorten bruise healing time to half 1-3 days vs 5-10 days

*Bruising is a possibility with any toxin injection or filler treatment where a needle tip can possibly nick tiny capillaries or venules. This is not a medical emergency. If an urgent laser treatment visit is desired for soon upcoming social event, schedules as such. Additional rates apply for urgent appt call ins.

PAYMENT

I understand that this procedure is cosmetic and that payment is my responsibility.

RESULTS

I am aware that full correction is important and that follow-up touch ups/treatments will be needed to maintain the full effects. I am aware that the duration of treatment is dependent on many factors including but not limited to: age, sex, tissue condition, my general health and life style conditions, and sun exposure. The correction, depending on these factors may last 3-6 months and in some cases longer. I been instructed in and understand post treatment instructions and have been given a copy of them.

I hereby voluntarily consent to treatment. The procedure (s) has been explained to me. I have read the above and understand it. My questions have been answered satisfactorily. I accept the risks and complications of the procedure. I certify that if I have any changes occur in my medical history I will notify the office.
