

## **XEOMIN Consent**

I am aware that when a small amount of a neuro modulation XEOMIN® (incobotulinumtoxinA) is injected into a muscle it causes weakness of that muscle. For example: Frown lines between the eyebrows are due to contraction of a small muscle, corrugator beneath the inner part of each eyebrow. Injecting "XEOMIN®" into this muscle will relax it causing improvement or disappearance of the frown lines. This appears in 3-4 days and usually lasts four months but can be shorter or longer. The number of units injected is an estimate of the amount of XEOMIN® required to paralyze the muscles. I understand there is no guarantee of results of any treatment. I understand the regular charge applies to all subsequent treatments. No refunds will be given for treatments received. As XEOMIN® is not an exact science, there might be an uneven appearance of the face with some muscles more affected by the XEOMIN® than others. In most cases this uneven appearance can be corrected by injecting XEOMIN® in the same or nearby muscles. However in some cases this uneven appearance can persist for several weeks or months.

### **Results and Postoperative Care**

- I understand that I will not be able to move the treated muscle/s while the injection is effective but that this will reverse itself after a period of months at which time re-treatment is appropriate.
- I understand that I must stay in the erect posture and that I must not manipulate the area of the injection site for the four hour post-injection period.
- I understand that to maximize results, I should contract the injected muscles for a period of 1 hour.

### **Risks and Complications**

XEOMIN® treatment of frown lines can cause minor temporary drop of one eyelid in approximately 2% of injections. This usually lasts 2-3 weeks. Occasional numbness of the forehead lasting 2-3 weeks, bruising and transient headache have occurred. In a very small number of individuals, the injection does not work as satisfactorily or for as long as usual. I understand there is a risk of swelling, rash, headache, local numbness, pain at the injection site, bruising, respiratory problems, and allergic reaction. Most people have lightly swollen pinkish bumps where the injections went in, for a couple of hours or even several days.

### **Photographs**

I authorize the taking of clinical photographs and their use for scientific purposes both in the publications and presentations. I understand my identity will be protected.

### **Pregnancy and Neurologic Disease**

I am not aware that I am pregnant or nursing nor that I have any significant neurologic disease.

### **Payment**

I understand and agree that all services rendered to me are charged directly to me and that I am personally responsible for payment. I further agree in the event of non-payment, to bear the cost of collection, and/or Court cost and reasonable legal fees, should this be required.

**I agree that this constitutes full disclosure and that it supersedes any previous verbal or written disclosures. I certify that I have read and fully understand the above paragraphs, and that I have had sufficient opportunity for discussion and to ask questions. I consent to the XEOMIN® Cosmetic treatment today and for all subsequent treatments.**

BY SIGNING BELOW, I ACKNOWLEDGE AND CERTIFY THAT I, \_\_ HAVE READ AND UNDERSTAND THE "CONSENT, RELEASE AND INDEMNITY AGREEMENT" FOR THIS PROCEDURE, AND THAT I AM SIGNING IT VOLUNTARILY.

**PLEASE SIGN YOUR FULL NAME BELOW IF YOU AGREE**
